Web Technologies

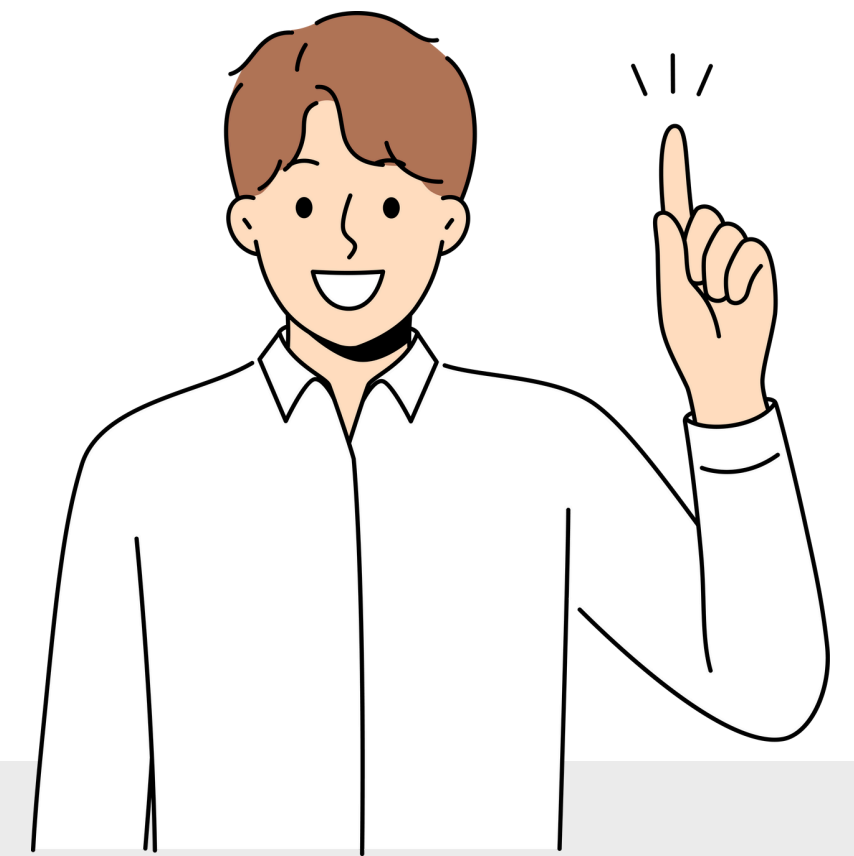

Kavindu Samarasinghe (BSc)

What are Web Technologies?

What are Internet Technologies?

Internet technologies are the devices, **software**, hardware, and protocols that allow users to access and communicate over the internet

Internet

HTML

CSS

JS

The background of the slide features a complex, abstract graphic on the left side. It consists of a series of thin, light red lines that intersect to form a grid-like pattern. Overlaid on this grid are several curved, concentric lines that sweep from the bottom left towards the top right, creating a sense of depth and movement. The overall color scheme is dominated by orange and red tones, with the main content area being white.

What are the assessments?

IJSE – Institute Of Software Engineering

4 Months Module

**This module has
11 in class and homework
assignments**

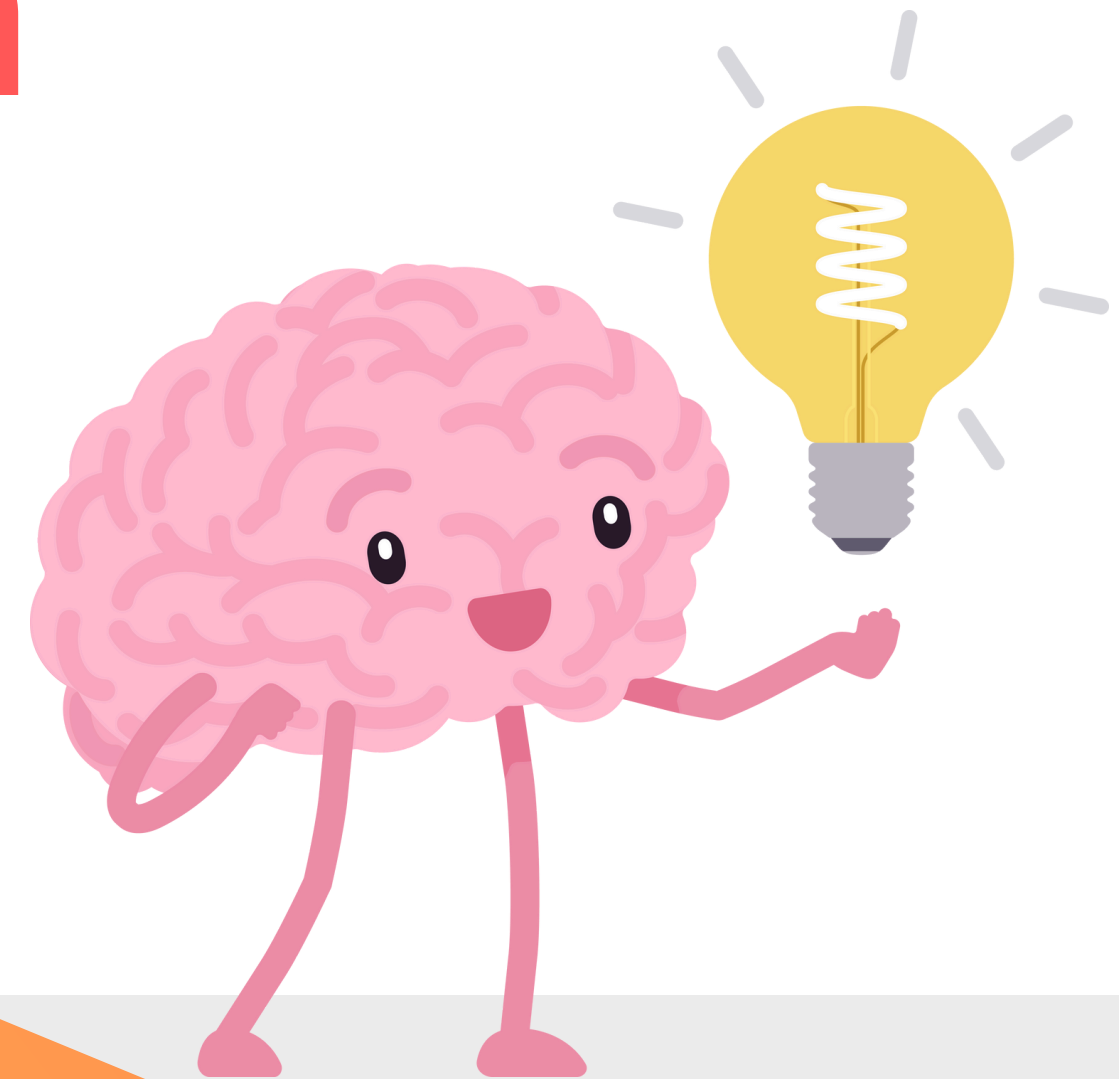

IJSE – Institute Of Software Engineering

With 2 Major Projects

**What are the things
you should have
to complete
this module?**

Enthusiasm

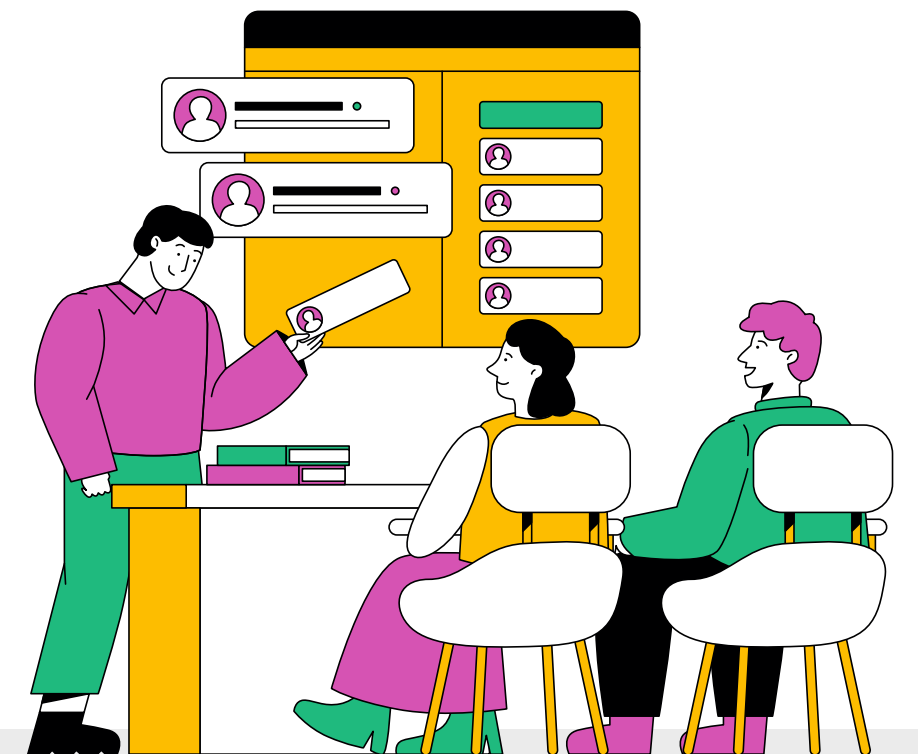

Courage

Skill of Self Study

Participation

IJSE – Institute Of Software Engineering
